Notes :

4)
Here are the lists of comparison between item quantity sold, available for sale and ordered. We noticed some unusual order behaviour. For this case Darjeeling Himalayan Wine Tea are haven't been sold at all and still have item available for sale, but ordered in high amount of quantity. Usually this behaviour hapen when we have good price or discount and we know that this product are potencial. We have to check this to clarify. Too many stocks for unpotencial product means bad cashflows for the company.
